

Perspective: Treatment Center, Haiti

- 
- The objective is to present our views from the perspective of treatment center representatives and the drug observatory in Haiti.

- 
- *How is in-country coordination progressing?*
 - *What is your experience using the intake form?*
 - *What is your experience using the Epi-Info data entry software?*
 - *What are the barriers or challenges you face if any?
What are your needs?*
 - *How is the information from this system disseminated within the country?*
 - *How do you currently use the information that you are getting from this system?*
 - *Do you plan to incorporate this data into your annual DIN report?*

How is in-country coordination progressing?

- *We collaborate with centers that evolve in the field of the treatment and prevention of drug addiction*
- *Those centers get addicts with alcohol problems. Other drugs are quite common among drug addicts, such as tobacco, marijuana and crack.*
- *The recovery of treatment center files for the analysis of the profile of drug addicts is done throughout the year.*

What is your experience using the intake form?

- *We use the inform take of the CICAD.*
- *The admissions sheets of these drug addicts are sent to the Observatory*
- *The data are collected with Epi Info*

What is your experience using the Epi-Info data entry software?

- *We use Epi-Info in order to establish control statistics.*

What are the barriers or challenges you face if any?

- *Recover admission forms*
- Lack of coordination
- Analyze information
- Include the information in the annual report
- Financial problem
- Limited resources

What are your needs?

- *Technical support*
- *Better coordination with treatment centers*
- *Better Institutional structures*

How is the information from this system disseminated within the country?

- *We do not reach the whole country*
- *Some centers do not collaborate*

How do you currently use the information that you are getting from this system?

- *It is sent to CLCAD for further analysis*
- *It is used for our annual reports*

Do you plan to incorporate this data into your annual DIN report?

- Yes
- Thus enabling the development of public policies by the competent authorities in the field of drug treatment based on evidence.

- 
- **Thank you for attention**
