Presented by – Mark Lambrides, Organization of American States

10:25 – 10:45 am

#### Coffee Break

10:45 – 11:15 am

Regional perspectives on energy planning (CARICOM / CARILEC)

- 11:15 – 11:45 am      **Current status of NEP/SEP development (where we are)**  
Presented by:  
Hugh Sealy, Energy and Sustainable Development Advisor, Ministry of Finance, Planning, Economic Development, Energy and Foreign Trade
- 11:45 – 12:30 pm      **Building blocks of a National Energy Policy and Sustainable Energy Plan in Grenada**
- What are the priorities for energy sector development in Grenada (increased RE, enhanced EE, lower generation costs, environmental protection, increased reliability and security)?
  - What are the challenges (lack of domestic oil production, limited use of renewables, small-scale power sector, rebuilding from the hurricane)?
  - Critical tools for energy policy and regulation
  - Discussion of targets for a prospective NEP/SEP
- 12:30 – 01:30 pm      **Lunch**
- 01:30 – 02:30 pm      **Building blocks of a National Energy Policy and Sustainable Energy Plan in Grenada (discussion continued)**
- 02:30 – 03:00 pm      **Utility Perspectives on Sustainable Energy Opportunities in Grenada**  
Presented by:  
GRENLEC representative (to be confirmed)
- 03:00 – 03:30 pm      **Next Steps: Setting out a plan for the development of a National Energy Policy and a Sustainable Energy Plan**
- 03:30 pm              **Meeting adjourned**
