

Greening the OAS One Bike at a Time

It was 8:45 am, the temperature was 35 degrees Fahrenheit (1.6 degrees Celsius), when a group of 7 riders from the OAS announced its contribution to make the organization a more green place. The initiative called "**Greening the OAS a Bike at a Time**" seeks to promote the use of alternative transportation as a concrete contribution to climate change mitigation as well as a way for promoting healthy habits and strengthening social and intercultural relations.

The OAS Bikers Group is planning other activities to further promote use of alternative transportation. To give you an idea of the benefits of using alternative transportation, here's information on Greenhouse Gases emissions by means of transport.

For more information about the **OAS Bikers Group**, please contact Francisco Burgos at fburgos@oas.org or at ext. 6818
