

**Overseas Private Investment Corporation**

## **Office of Accountability**

**The Independent Accountability Mechanisms  
of the International Financial Institutions:  
Strengthening Public Participation in  
Sustainable Development**

**San Jose, Costa Rica**

**22 January 2010**

## The Accountability Mechanisms' mission

Office of Accountability

- Direct channel for communities to express concerns and seek recourse
- Compliance with environmental and social policies
- Greater public accountability at the international financial institutions

## Fundamental principles

Office of Accountability

- Reports to top management and Board of Directors
- Independent of line management
- Accessible to communities and diverse stakeholders

## Fundamental principles, *cont'd*

Office of Accountability

- Transparent in our operations and outputs
- Share best practices with other Accountability Mechanisms

# Eligibility criteria

Office of Accountability

- An OPIC-supported project
- *Prima facie* evidence of material, adverse and direct impacts
- Prior effort to resolve dispute
- Representatives have clear authority

## What complainants can expect from Accountability Mechanisms

Office of Accountability

- Immediate acknowledgement
- Timely visit
- Focus on community
- Neutral fact-finding and mediation

# Cooperation with civil society

Office of Accountability

National and international NGOs:

- pressure international financial institutions to establish Accountability Mechanisms
- disseminate information about Accountability Mechanisms to project-affected communities
- help communities prepare complaints

# Your thoughts?

Office of Accountability

How can civil society's engagement with IFI-supported projects be made easier? Barriers?

How can the Accountability Mechanisms of the IFIs help improve public participation in environmental decision-making?

Office of Accountability

Muchas gracias!
