REEEP's Vision and Focus

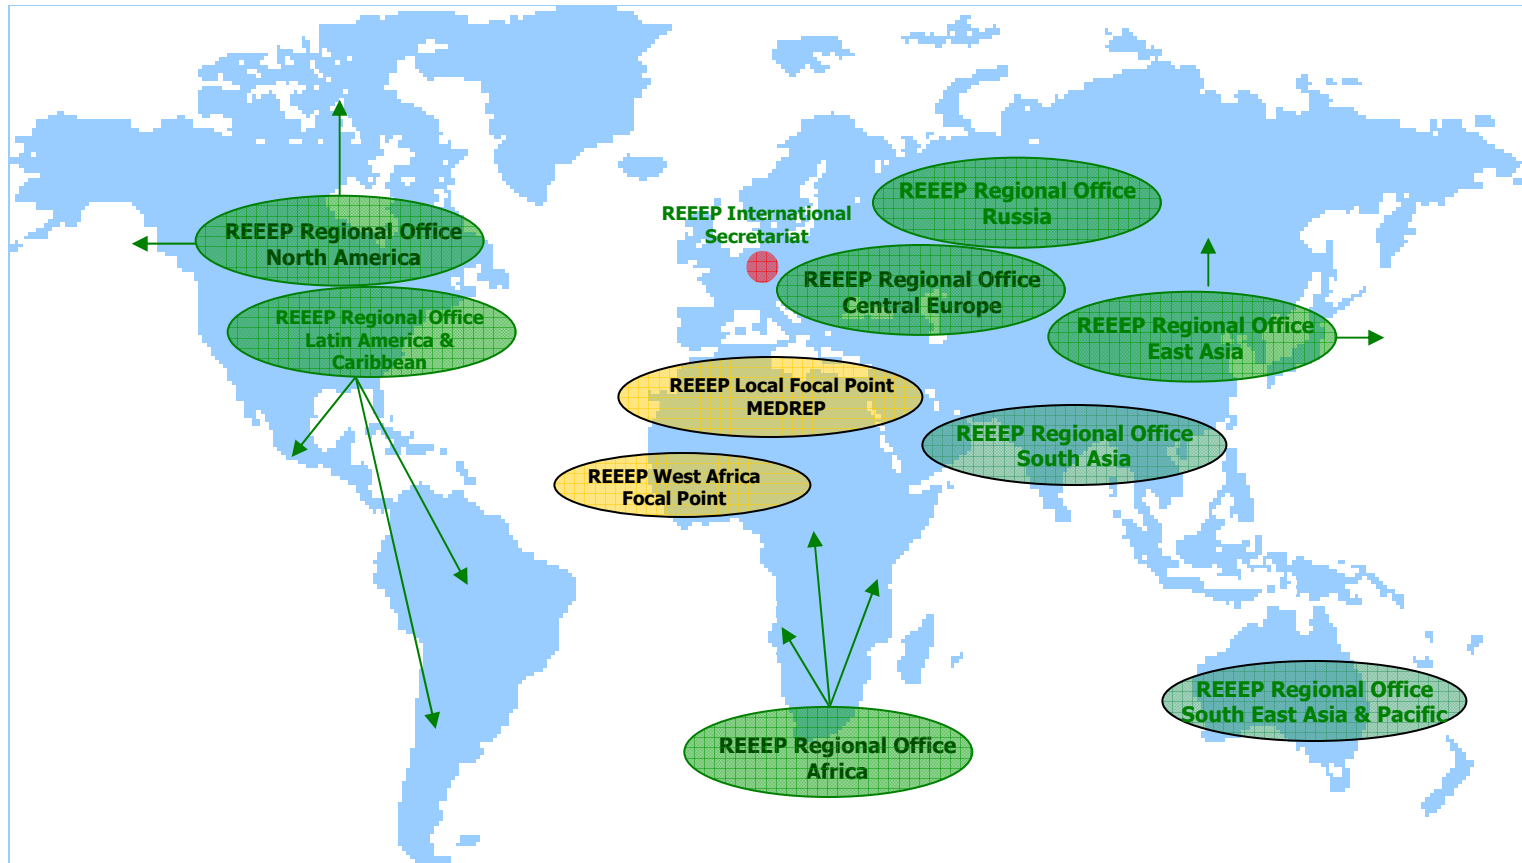

1. REEEP focuses equally on the **demand** and **supply** side of energy systems
2. REEEP aims to reduce **business** and **policy** barriers for renewables and energy efficiency systems
3. REEEP believes in action on the ground via projects that target on **policy and regulation** and **business and finance** approaches.

REEEP Programmes

- Most potent set of activities to achieve REEEP's mission – **Accelerating the Uptake of RE and EE;**
- Priorities developed by REEEP partners through a **region-led, bottom-up** process;
- Projects identified through an **open and transparent** process to support **best projects in targeted countries**
- Emphasis on **impacts** than outputs.

What this means...

- REEEP partners in LAC can define priorities for the region – Business & Finance and Policy & Regulation;
- Identify any specific projects that we may commission;
- Identify an individual as the members who represents Latin America and the Caribbean on the REEEP Programme Board;
