

Regional focus:
Inter-American Dialogue
Table for Scientific Education

On March 12, 2021, the second regular meeting of the **Inter-American Dialogue Table for Scientific Education (MIDEC)** was held.

Established on December 12, 2020, during the Fifth Virtual Meeting of Natural Sciences Teaching (ENCINA) in Argentina, MIDEC's fundamental mission is to facilitate joint actions and coordinate efforts **to promote innovation in the teaching of science and technology, in the research on the teaching of natural sciences and continuous professional development.**

MIDEC is made up of more than 10 associations from various countries.

Participating associations include **ITEN partners** such as the Association of

Physics Teachers of **Argentina**, the American Association of Physics Teachers **Mexico** Section, and the newly established Association of Physics Teachers of the **Dominican Republic.**

ITEN participants actively involved in the initiative:

- Florencia López (AR)
- Ignacio Idoyaga (AR), President
- Carmen del Pilar Suárez (MX)
- Juan José Mejía Reyes (RD)
- Sandra Guerrero Rodríguez (RD)

MIDEC is expected to promote actions **to strengthen the teaching of natural sciences in the Americas**, based on the different regional realities and beyond borders, democratizing access to educational resources in the region.
