STEM GROUP FOR CHILDREN

The **ITEN Project Team**, Fe y Alegría of **Colombia**, the Uladislao Gámez Solano Institute of the Ministry of Public Education of **Costa Rica**, the CEB Rafael Pineda Ponce of **Honduras** and the STEMAZing Project of the **United States**, have created a Facebook group with the aim of bringing together education professionals, mothers and fathers, and other adults who are interested in offering enriching and engaging STEM activities to children ages 3 to 8.

1000+

teachers (and growing)
are part of the group

The group participants exchange information about STEM events for kids, courses, class methodologies, and more.

The group is available in Spanish only.
