

Country in Focus: Dominican Republic

The members of a Project Team of the **Autonomous University of Santo Domingo**, developed a **training with a STEAM approach for secondary education teachers** of the **Dominican Republic**.

The initiative includes 3 main points:

1. Virtual Training Workshops

From **March 24 to May 5**, experts will facilitate the workshops in order **to support teachers with the design and development of learning activities with a STEAM approach**, based on the needs of their school community.

Each participant will receive didactic resources and at the end of the course they must demonstrate the implementation of the knowledge together with their students, submitting evidence to the coordinating team, such as reports, photos and / or videos.

Leaders of this initiative include:

- **Gladys Núñez**
- **Lamec Fabian**
- **Rosanna Ramírez**
- **Gabriel Morfe**
- **Rosa Almonte**
