

On January 14, 2021, **ITEN Teacher Fellow Janet Lewis** led the first of a three-part professional development session for early childhood teachers in Jamaica, "STEM Integration in Teaching Children 3 to 6 Years Old." This activity is part of Janet's 2020-2021 teacher leadership plan.

25

teachers are taking part in this community of practice, including pre-service teachers.

Goals

Program goal include (1) developing an awareness of STEM and its components, and (2) applying STEM-related skills in teachers' interactions with children 3 to 6 years old.

Sessions include a combination of theoretical and practical activities, including the following:
