Every Child Can Learn. Every Child Must Learn

CKHS STEM CENTER PRESENTS

EXPLORING DIGITAL LITERACY THROUGH SLIDE CREATION & ANIMATION WORKSHOP

CERTIFICATE UPON COMPLETION

April 6th -8th, 2021
TIME 2:00 PM - 4:00 PM
Platform Zoom

OAS | ITEN

STEM CENTER OHS SCHOOL

This intensive technology education training course supported teachers in **learning how to create interactive Google Slides** and use **Nearpod**, allowing them to add audio, animation, and interactivity.

Supporting teachers' **technological literacy is not only a critical part of STEM, but promotes active learning across all disciplines.**

140

teachers participated in the training.

The activity received support from the Jamaica Ministry of Education, Youth and Information and the Association of Science Teachers of Jamaica by way of ITEN Project Team participant **Sadpha Bennett.**

Creating Interactive Slides Using Google Slides

Uses

- Create games
- Create worksheet & assessment
- Meet & greet - Class Introduction

Click below to access the various tutorials created by Kaydia, which supported the workshops.

Session 1

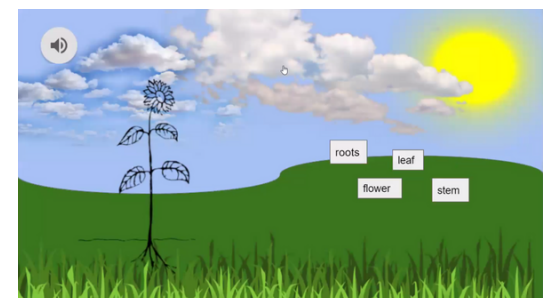

"I've learned quite a few new skills. [Kaydia] was empathetic and patient!"

Teachers participated in instructional lectures, small group work, and evening assignments.

Teachers across all grade levels participated in these training sessions. **Each teacher walked away with a set of interactive resources they could immediately use with their own students.**

Session 2

Session 3
