

Early childhood Teacher Fellow **Shaffina Ahamad-Hamid**, from Trinidad, also has begun to use *WhatsApp*. Shaffina finds many of her ideas online, and encourages parents to use everyday materials to make teaching resources for their children, such as this fine motor skill and letter-matching activity.

As a committed STEAM teacher, Shaffina also works to integrate the arts into hands-on science activities, using the many available activities from *YouTube*.

The Ministry of Education of Trinidad and Tobago supports online learning for early childhood through secondary education through two online learning platforms, which includes detailed curricular guides that are available to the public.

"It is my hope that as we get more familiar with this means of teaching and learning for now it will be of benefit to all of us, teachers, parents and our children."
