Appendix 1
OAS Real Estate Asset Location
(GSB and Constitution Avenue Complex)
2.1 The General Secretariat Building (GSB) is located at 1889 F Street, NW, between the Old Executive Office Building and The George Washington University campus. The GSB was constructed in 1978 and was totally renovated between the years 2002 and 2004. It is considered a Class A Office Building with 362,217 Square Feet of Gross Area.

2.2 As of Oct 31, 2018, the principal balance of the debt is $17,600,000 USD. To this balance must be added the component of the Swap (Mark-to-Market), which last value received from the bank as of Oct 31, 2018 is $4,478,826. With a total debt value of $22,078,826.

- Property: General Secretariat Building
- Property Address: 1889 F St., NW, Washington, DC, 20006
- Property Type: Class A
- Owner: Organization of American States
- Property Type: Office Building

SITE DESCRIPTION
- Property Land Size: 34,247 SF
- Type of Ownership: Fee Simple Interest
- Floor Area Ratio (FAR): 6.5/Maximum Height of 90 Feet
- Zoning: C-3-C (Major Business and Employment Center)
- Parking: 215 spaces
• **Street Frontage:** 200 Feet on F Street and 150 Feet on 19 Street, N.W.
• **Cross Street:** F Street
• **Highway Access:** N/A
• **County:** District of Columbia
• **Lot:** 25

### Notes
- **Rear Setback (ft.)**: 2.5 in. per 1 ft. of vertical distance from the mean finished grade at the middle of the rear of the structure to the highest point of the main roof or parapet, but not less than 12 ft.
- **Side Setback (ft.)**: If provided, at least 2 in. wide for each 1 ft. of height of building but no less than 5 ft.
The 1948 Administration Building was designed by Albert Kelsey in conjunction with the Philadelphia firm of Harbeson, Hough, Livingston & Larson, the firm previously headed by Paul Cret prior to his death in 1945. It is not surprising, therefore, that this building, built so many years after the construction of the Main Building and its Annex across the street, harmonizes so well with the original structures. An Act of Congress allowed the OAS to build this white marble office building on Federally owned land.

Constructed of white marble with a sloped main roof of tile, this building harmonizes with the other monumental buildings in the area. It has a full basement and a semi-subterranean Ground floor, topped by two additional full floors and a third partial penthouse under the central portion of the building. The stone detailing is Classical in style, but exaggerated in scale, making it appear to be a larger building than it is.

The U-shaped plan has a central terrace over the Ground floor at the rear side of the building. The terrace is further enhanced by a large marble fountain in its center. All of the windows and doors are high quality units made of bronze. The building is nicely sited at the center of the property, but the grounds are otherwise unremarkable.
ADM LOCATION
(identified as Pan American Annex)

ADM 1st Floor
Located at 17th Street & Constitution Avenue, NW
- Originally constructed between 1908 and 1912
- Total of 109,609 Gross Square Feet
- Built out of white Georgia marble (in the Beaux Arts tradition) over a steel frame
- Designed by Paul Phillipe Cret and Albert Kelsey
- Listed in the National Register of Historic Places in 1969
- Two floors above grade/one floor below grade
- Primarily office and ceremonial spaces
- Together with its Annex (now the Art Museum of the Americas) the MNB is considered a landmark contributing to the visual context of the National Mall
- MNB includes a very high level of art and craftsmanship exhibited in the many decorative exterior and interior details
- Current OAS population at MNB: total of 96 personnel
- Parking availability: 40 parking spots at the front entrance (for OAS delegates). 87 additional spots at the MNB parking lot located at C Street and 18th Street (proposed site for new office building)
