# OAS – Government of Chile Scholarship and Training Project for CARICOM Countries

**Scholarship Offer in Partnership with the  
T.A. Marryshow Community College in Grenada**

**Available to Grenadians Only**

## AVAILABLE COURSES:

- 1. Water Quality Monitoring**
- 2. Post-Disaster Business Continuity Programmes.**

## ▼ DESCRIPTIONS AND BENEFITS OF PARTICIPATING IN THE COURSES

### 1. Water Quality Monitoring

This course provides an introduction to water quality monitoring at the community level. It is useful for persons interested in learning the practical aspect of how to monitor water quality. Participants will learn how to collect water samples, create filters from local raw materials, conduct tests on samples and create a report of their findings. This critical skill will assist participants in determining the suitability of water for consumption and other uses. Participants will also be engaged in a field trip.

### 2. Post-Disaster Business Continuity Programmes.

This course provides training on business recovery post disasters. It will help participants to explain the ten (10) professional practices for Business Continuity Management, identify and assess risks and suggest ways to mitigate same, conduct a business impact analysis, recommend cost-effective strategies to reduce deficiencies, develop an incident response for an organization, plan development and implementation, develop a crisis communication plan, improve the overall business continuity management within the organisations and establish policies and procedures to coordinate incident response activities with public entities.
