OAS – Government of Chile Scholarship and Training Project for CARICOM Countries

**Scholarship Offer in Partnership with
The University of the West Indies Open Campus**

Available to Citizens of Trinidad and Tobago Only

AVAILABLE COURSE:

**Water Quality Management and Plumbing Essentials for
Disaster Recovery**

▼ DESCRIPTION AND BENEFIT OF PARTICIPATING IN THE COURSE

After natural disasters, such as hurricanes or floods, water ways become polluted and this becomes a public health concern. Assessment of the physical, chemical and biological water quality becomes critical in these times, so that the country's water systems can be treated in good time to prevent the spread of water borne diseases. Plumbing systems are also unearthed due to landslides and the force of flood waters. Community water systems as well as individual homes experience damage to plumbing lines, sewers, pumps and other key fittings.

The delivery of this course will therefore focus on integrating these two areas so that the participants will be sensitized to the immediate needs and response required for disaster recovery.

▼ COURSE OBJECTIVE AND PROFILE OF PARTICIPANTS

The participants will learn the basic principles of the water systems, and water quality including Installation Standards, Plumbing Terminology, Plumbing Codes, Waste Connections to Plumbing System, Preventing Cross-Connections in Treatment System Installation, Valves, Fittings, Common Plumbing Symbols, Pipe Material, Hangers and Supports. At the end of the course they will be able to:

- Demonstrate the ability to recognize the water problems and water chemistry concerns.
- Demonstrate the ability to diagnose, analyze and evaluate problem water sources and recommend relevant solutions.
- Identify common water treatment equipment and their applications and utilization as part of a treatment train.
- Explain the application of water treatment equipment with respect to problem water chemistry.
- Know the plumbing codes.
- Identify various fixtures and valves and know their uses. Including, setting up sewer connections.
- Install various plumbing fixtures in homes and water treatment plants.
- Repair all plumbing fixtures and fittings

▼ Target Group/Profile of Participants:

The course is specifically designed to train persons with basic plumbing skills who can be called upon to work as First Responders in emergencies. These would include plumbers, Contractors, Regional Corporation staff and persons who work in water solutions and water management companies who may not have been formally trained.

▼ COURSE LOCATION, DATES & DETAILS

The Course will be held from July 1 – 26, 2019 at UWI Open Campus, Carapichaima Centre. For more specific questions about the Course, please contact, gordon.street@open.uwi.edu, 227- OPEN (6736) Ext: 30500, 30506, 30513, 30531, 30537, 30538; 30200.
