Through its Department of Human Development, Education and Employment (DHDEE), the GS/OAS supports [OAS Member States](#) in creating policies and executing programs that promote human capacity development at all educational levels. By enabling formative opportunities to citizens, DHDEE strengthens democratic values and security under the framework of regional integration. The [Ministry of Education](#) of The Bahamas vision is for a Bahamian Education system that will foster academic excellence and equip students with multiple literacies that will enable them to make meaningful contributions as nation builders who are globally competitive.
