ABOUT OAS AND STRUCTURALIA INITIATIVES

STRUCTURALIA stands as the premier global institution for specialized training in engineering, infrastructure, and energy. Since 2001, more than 200,000 professionals across all five continents have chosen to enroll in our distinctive training programs and highly specialized postgraduate courses, with a university certification. Presently, 33% of our students are women, and 38% are young individuals aged 20 to 30, reflecting the diversity of our academic community.

STRUCTURALIA promotes its post-graduate courses with the collaboration of outstanding universities and institutions in each field, and collaborates with national and international experts of each discipline for the development of the educational content and for mentoring. STRUCTURALIA promotes more than 1000 specialized courses with a faculty of authors and professors of more than 550 professional experts in each of the disciplines they teach.

The OAS General Secretariat (GS/OAS) is the central and permanent organ of the [Organization of American States](#) (OAS). Through its Department of Human Development, Education and Employment (DHDEE), GS/OAS supports [OAS member States](#) in creating policies and executing programs that promote human capacity development at all educational levels. By enabling formative opportunities to citizens, DHDEE strengthens democratic values and security under the framework of regional integration. DHDEE does this: (i) by supporting the efforts of OAS member states to improve the quality of and equity in education; and (ii) by assisting the citizens of the Americas in realizing their full potential by giving them access to knowledge and skills through training that improves the standard of living for individuals, families and communities in the region.

ABOUT THE SCHOLARSHIP

Benefits:

- The grant will cover **50% of the total cost of the tuition fee**, according to the selected program.
- Moreover, **individuals aged 20 to 30** who enroll in a master's program will enjoy, at no additional cost, the added benefit of complimentary access to a **technical course** of their choosing, from a curated selection that aligns with current market demands. This supplementary content is designed to equip them with pertinent technical knowledge in their professional domain, synergizing with the master's degree program they are enrolled in to facilitate their entry into the job market.
- An **additional 5% discount for women** with the goal of diminishing the income disparity compared to men in similar professional roles, and encouraging their access to superior education in the STEM fields, which is where (according to the experts) the majority of working opportunities will be generated.
- The benefits are subject to the academic performance of the scholar to maintain the grant for the duration of the study program. The scholar can't be reported for low academic levels for the absence of the program and/or failing of school subjects. Also, it should keep an average grade of 6/10 or higher in every academic period.

Eligibility Requirements:

- Applicants who can qualify for the scholarship are all who are interested and poses a nationality and/or legal and permanent residency of any of the [OAS Member States](#) of the GS/OAS;
- To be a scholar, the candidate must have finalized the process of admission and have been admitted to the study program at STRUCTURALIA;
- The candidate can't have received other academic scholarships of OAS at the same educational level proposed in this call. The officials of GS/OAS, the people under a performance contract with GS/OAS, the Permanent Missions personnel and their families are not eligible for an OAS scholarship

Evaluation criteria and selection:

- Academic profile, merit, and academic credentials;
- The scholar potential impact with the completion of the study program, and;
- Geographic distribution of the scholars, considering the most important needs of the Member States, according to the Human Development Index reported in the United Nations Development Programme (UNDP).

Applicants Professional Profile:

These postgrad programs are directed to university graduates with a high school diploma, such as engineers, architects, building engineers, and bachelor's, preferably with professional experience, in the field in which the applicant is applying.

Master's Degree:

The student that complete any of the programs with a scholarship of 50% will obtain a double degree: one degree from Structuralia and a degree from the corresponding university.

About University degrees and Official Degrees:

In most countries, universities offer its degrees, which are design by their institution and endorsed by their reputation. In Spain, there are official programs and university programs. The official programs include the endorsement of the university that gives the degree and the State's recognition. These studies are subject to very careful evaluation that ensures the quality of the content and allows the inclusion in the Registro de Universidades, Centros y Títulos (RUCT) in Spain. On the other hand, university degrees are ensured by the recognition of the university or educational center that gives the degree, and its recognition is more oriented to contribute to the development of the student's professional career. These degrees are more aligned with the current demand of the market, which is why it provides specialized training for professional development and a more immediate knowledge update. Official degrees are regulated by the National Agency of Quality Education and Accreditation (ANECA for its Spanish acronym).

To know more about the implication of these different degrees, and the type approval and validation required in OAS member states, you are encouraged to consult directly with your Ministry/Department of Education or any other public entity in your country.

OAS SCHOLARSHIP APPLICATION PROCESS

Step 1 Application for admission to Structuralia's study program:

- Before applying, we recommend applicants to read the complete study program of choice to assure the study field corresponds to expectations;
- To be able to apply for an OAS-STRUCTURALIA scholarship is it essential to apply for admission and be admitted to one of the programs as listed in the table above;
- The applicants should keep the admission process for the program chosen in STRUCTURALIA;

Step 2 Application to OAS-STRUCTURALIA Scholarship

- The students who are interested in applying for the scholarship must first follow the admission process directly with STRUCTURALIA; and
- By being admitted to the study programs included in this call, the applicant will be automatically considered as a candidate for an OAS-STRUCTURALIA scholarship.

Step 3 Scholars selection OAS-STRUCTURALIA

- STRUCTURALIA, along with OAS, will create a specialized committee for the selection of the candidates by consideration the following:
 - ✓ Geographical distribution of the candidates, considering the Member States' most important needs, in accordance with the Human Development Index.
 - ✓ The academic profile, merit and academic credentials;
 - ✓ The potential impact of the applicant in the finalization of the study program;

Step 4 Results Announcement OAS- STRUCTURALIA

- The applicants must wait for the announcement of the results of the candidates' evaluation and selection process, which will be announced on the following website: www.oea.org/becas

SCHOLARSHIPS FINANCIAL RESPONSABILITIES

- Scholars will be responsible for covering the % of the total cost of the program not covered by STRUCTURALIA. Please get in touch directly with STRUCTURALIA to know the expenses the students must cover;
- The scholars will be responsible for the coverage of any other expense the program requires (for example, certificate issues or records, admission tests, graduation services, issue of degrees, document legalization, etc.);
- The compliance of every academic guideline and admission requirements requested by STRUCTURALIA and adhere to any updates the academic authorities can make.
- To maintain the scholarship, the scholar must approve all subjects of the curricular program within the established times, and to obtain an average score of 6 over 10 or higher, in every academic period. In case these requirements are not fulfilled, STRUCTURALIA or OAS will reserve the right to require the reimbursement corresponding to the provision invested on the scholarship.
- The scholar can reject the scholarship one week before starting the study program, without incurring a financial penalty. Nevertheless, if the candidate decides to decline the scholarship after the program has started, without any evidence or greater force argument, the OAS and STRUCTURALIA reserve the right of requesting the compensation corresponding to the provision invested on the scholarship, until the moment of the rejection;
- The students who enjoy the benefits of the scholarship will have to agree to work in their countries of origin or legal residence, within the OAS Member States, or in an international organism, for the same amount of time as the duration of the scholarship. In case they don't fulfill this requirement, OAS and STRUCTURALIA reserve the right of requesting the compensation corresponding to the provision invested on the scholarship; and

- **Neither OAS nor Structuralia take any responsibility for the acceptance or refusal of the educational entity's degrees or diplomas, within the scholarship recipient's country of origin.** If you would like to know how to legalize, certify, or validate the Structuralia degree in your country, we recommend you ask for information in your country's Ministry of Education or the corresponding Public Entity.
