About the Initiatives of the GCUB and the OAS

The **GCUB**, established in 2008, is an association of national (federal, state and community) Portuguese-language universities. Its mission is to promote inter-institutional and international integration through faculty and student mobility programs, thereby contributing to the internationalization process of this national university network and of its foreign counterparts.

The **OAS**, through its Department of Human Development, Education, and Employment (DHDEE), supports OAS member states in creating policies and executing programs that promote human development at all educational levels. By offering training opportunities to citizens of OAS member states, the DHDEE strengthens democratic values and security under the framework of regional integration. Moreover, on February 12, 2014, the DHDEE signed an agreement with the Pan-American Health Organization (PAHO/WHO) to incorporate scholarships for the area of Health to the OAS/GCUB PAEC 2014.

Each coordinator of the program/s selected by the candidate will evaluate his/her application based on the documents and work proposal submitted by the applicant, and will decide if the candidate is APPROVED or NOT APPROVED.

- The university will notify the GCUB the list of approved and not approved candidates. Whenever possible, the university will preselect at least four candidates per offered scholarship. This procedure is essential for a better use of grants in case of declinations.
- The university must take into account the geographic distribution criteria of OAS member states when preselecting candidates.

c. Third Phase: Final Selection

Applicants admitted by the universities in the previous phase will be ranked by the Evaluation Advisory Committee mentioned in Section 1 (GENERAL PROVISIONS) in this Edict.

The Evaluation Advisory Committee will make the final decisions on awarding the scholarships and of the student distribution into the programs and universities they applied to. Among the applications approved in the previous phase, the Committee shall consider the following weighted criteria:

- Geographical distribution of the applicants, taking into consideration the most important needs of emerging economies.
- Applicants from countries with a low human development index (HDI), according to the ranking of the United Nations Development Program (UNDP)⁵.

⁵ For more information on the Human Development Index (HDI) per country, please see the 2013 Human Development report by the United Nations Development Program (UNDP). <http://hdr.undp.org/en/reports/global/hdr2013/>
