This visa classification is due to reasons of Central American integration, tourism, trade, investment and regional security mandated by the Presidents of the member countries of CA-4.

Under the Immigration Integration Agreements' framework, the Government of Honduras has approved several special provisions that will allow foreigners with visas "Consular or without consultation (B)" or "WITH CONSULTATION (C)" that meet certain established conditions to be given special treatment different to the category that they originally appear. This procedure will easy their trip to one or more countries of Central America and it will be indicated at the time they submit their application for visa at any of the Foreign Service officers as per the exemption that applies.
