# Key financial data

## Legend:

- this is a current management concern
- management is actively monitoring the situation
- management believes this is going above expectations
- YTD year-to-date

### Budgetary execution

Overall program-budget - YTD level of expenditures	47%	
Regular Fund:		
YTD level of expenditures	49%	<span style="color: yellow;">●</span>
% of YTD expenditures related to personnel costs	62%	
Fund for ICR:		
YTD level of expenditures	49%	<span style="color: yellow;">●</span>
% of YTD expenditures related to personnel costs	70%	
Specific Funds YTD expenditures	USD 25.7 m	
Programmatic pillar with largest amount of YTD expenditures	Multidimensional security	

### Regular Fund liquidity risk assessment

Cash balance at the beginning of the year	USD 0 m	
Cash balance at the end of this period	USD 0 m	<span style="color: red;">●</span>
Projected cash deficits:		
Next month to show a cash deficit	August	<span style="color: red;">●</span>
Month with possible maximum level of cash deficit	November	<span style="color: red;">●</span>
Amount of deficit in November	USD 16.55 m	<span style="color: red;">●</span>
Loan balance to Treasury Fund (2014) at the end of this period	USD 7.55 m	<span style="color: yellow;">●</span>
Loan balance to Treasury Fund (2015) at the end of this period	USD 0.49 m	<span style="color: yellow;">●</span>

### Information on Regular Fund quotas

Quota compliance:		
# of member states current or considered current	23	
# of member states not current (without arrears)	7	<span style="color: yellow;">●</span>
# of member states not current (and with arrears)	4	<span style="color: red;">●</span>
Total balance due at the beginning of the year:	USD 94.1 m	
Due from arrears	USD 11.7 m	<span style="color: red;">●</span>
Due from current assessment	USD 82.4 m	<span style="color: yellow;">●</span>
Net quota payments received so far this year	USD 41.9 m	<span style="color: yellow;">●</span>
Projected total balance due by year-end based on payment plans/history	USD 20.7 m	<span style="color: red;">●</span>

### Specific Funds

YTD overall contributions received from donors	USD 17.3 m	
YTD contributions - % change over same period last year	-27%	<span style="color: red;">●</span>
YTD contributions - % change over same period last year by donor:		
Member states	-51%	<span style="color: red;">●</span>
Permanent observers	101%	<span style="color: green;">●</span>
Institutions and other donors	-16%	<span style="color: yellow;">●</span>
YTD ICR collection on Specific Funds - % change over same period last year	-18%	<span style="color: red;">●</span>
Amount of new donor agreements starting execution this year	USD 13.4 m	
Programmatic pillar with largest amount of YTD expenditures	Democracy and gov.	

### **GS/OAS Quarterly Financial Report (QFR)**

This report is presented in compliance with the financial reporting requirements established under resolution AG/RES. 1 (XLVIII-E/14). Any limitations of this report regarding financial compliance with that resolution are noted on the corresponding sections of this report.

#### **Prepared by the General Secretariat of the Organization of American States (GS/OAS)**

Department of Financial and Administrative Management Services

Secretariat for Administration and Finance

1889 F Street, N.W., Washington, D.C. 20006, USA

**Original: English**

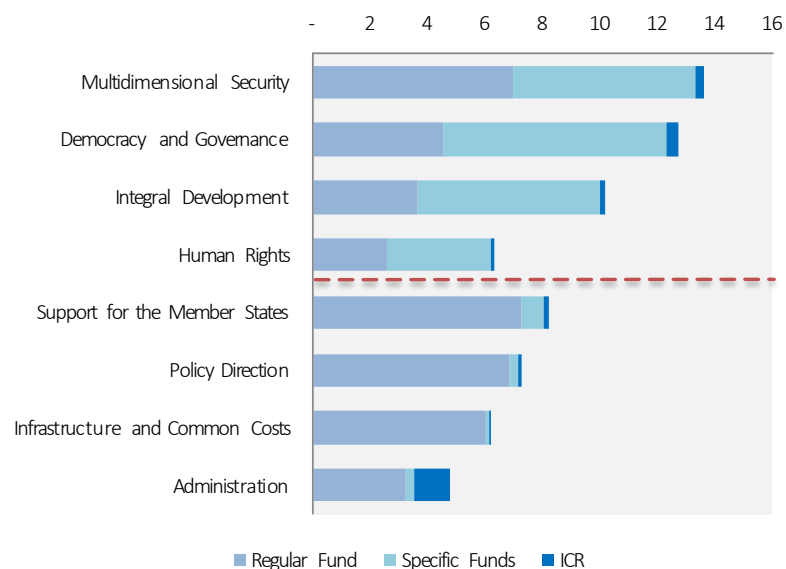

# Introduction

- Financial highlights
- Budgetary execution and variances by chapter
- Combining Statement of Changes in Fund Balances
- Information on quotas
- Regular Fund liquidity risk assessment
- Contributions from member states to OAS funds
- Disbursements by location
- Supplementary Appropriation CP/RES. 831

## Financial highlights

The year-to-date level of execution for the combined Regular Fund, Specific Fund and Fund for Indirect Cost Recovery (ICR) reached 47% of the USD 149 million 2015 Approved Program-Budget (Figure 1). The level of expenditures for the Regular Fund and the ICR reached 48.7% and 48.9% of their approved budgets, respectively. Specific Fund expenditures reached USD 25.7 million, slightly lower when compared to the same period last year (USD 27.2 million).

Figure 1: Expenditures by programmatic pillar and source of financing (in millions of USD)

With respect to year-to-date Regular Fund quotas, out of 34 member states, 23 member states are current and/or considered current with their quota assessment

and 11 member states are not current (Figure 2). The latter have not paid their quota assessment for the current year nor have they submitted a written payment plan to the General Secretariat. Four member states within this group have not paid their quota balance in arrears (amounts owed for 2014 and prior years).

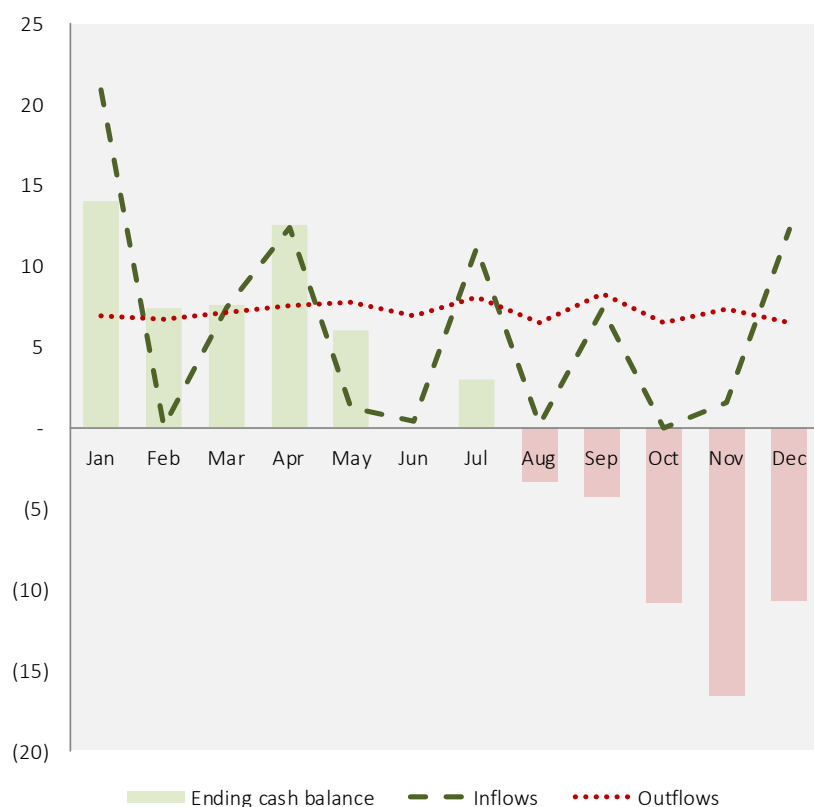

Figure 2: Share of member states' compliance with quota payments to the Regular Fund

In terms of liquidity, the Regular Fund began the year with a cash balance of USD 0, fluctuating through the year and ending again in USD 0 million by the end of the quarter (Figure 3). The GS/OAS projects a possible maximum cash deficit of USD 16.55 million by November of this year considering member states' payment plans and payment history (excludes member states with balances in arrears). Although the approval of the extension of the temporary loan from the Treasury Fund through CP/RES. 1046 (2013/15) has already helped mitigate cash shortages this quarter, the

delay in quota payments continues to be a long-term management concern as it significantly impacts liquidity in the Regular Fund. At this time, the General Secretariat cannot project the repayment of the temporary loan, since it has not received indications from those member states in arrears, as to when the due amounts will be paid.

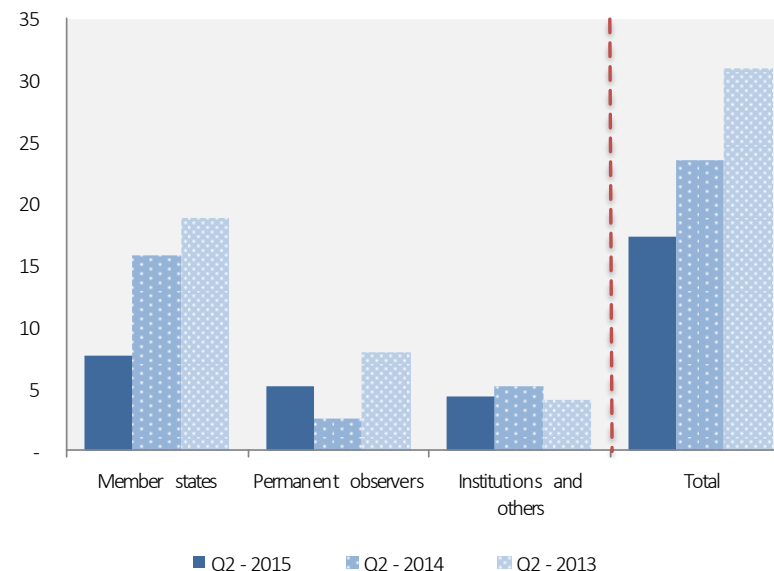

Figure 3: Regular Fund liquidity risk assessment with projections through year-end (in millions of USD)

Contributions to Specific Funds reached USD 17.3 million, approximately 27% and 44% lower than the same periods in 2014 (USD 23.6 million) and in 2013 (USD 31.0 million), respectively. Year-to-date contributions from member states and other in-

stitutions have decreased by approximately 51% and 16%, respectively, compared to the same period last year. At the same time, however, permanent observers increased their contributions significantly by 101%. The increase of contributions from permanent observers has not been enough to offset the overall decrease in contributions to Specific Funds. This decline in contributions is already impacting ICR collection, which is 18% lower when compared to the same period last year. Although it is still too early to tell at this point in time, the overall decrease in contributions may only reflect a timing issue in donor programming.

Figure 4: Quarterly trend of contributions to Specific Funds by donor (in millions of USD)

With respect to compliance and oversight issues, so far this year, two external financial audits were performed on OAS/MAPP “Basket Fund” and Judicial Facilitators Program in Central America resulting in clean opinions. One more specific project audit is already programmed to start in the third quarter of this year and, potentially, up to 29 additional audits may be requested by donors during 2015.

### Budgetary execution and variances by chapter

As per OAS General Standards, the Secretary General has the authority to transfer Regular Fund resources from one Chapter of the program-budget to another for up to five percent. Transfers that exceed five percent or involve substantial alteration of any approved program within any fiscal period require prior approval of the Permanent Council. These conditions do not apply to the Fund for Indirect Cost Recovery (ICR), thus explanations are supplementary. Table 1 presents budgetary execution for the Regular Fund and corresponding explanations on projected budget variances at the chapter level. Table 2 presents the Fund for ICR in a similar manner. Detailed execution reports by subprogram for each fund are published in the [OAS website](#).

#### Regular Fund—explanations for year-end projected variances (+ or - 5%)

Chapter 1 – Office of the Secretary General—Personnel: Three D02s and one G04

were added in subprogram 13A. A G07 was fully projected in subprogram 13C. Non-personnel: Additional funding has been given to subprograms 13A and 13C to cover CPRs.

Chapter 3 - Principal and Specialized Organs—Personnel: Actual personnel costs are lower than budgeted average costs.

Chapter 5 - Secretariat for Legal Affairs—Personnel: A P05 was transferred from subprogram 53A to subprogram 83L. Non-personnel: Transfer of \$37.2K to subprogram 33C to cover CPR services. Additional funding of \$12.4K authorized to CPR services in subprogram 53C.

Chapter 7 - Secretariat for Political Affairs—Personnel: Two P04s, from subprogram 73A, were transferred to subprogram 13A and a new P01 was projected for 3 months. A G06 in subprogram 73B will be filled for 3 months in 2015. Actual personnel costs are lower than budgeted average costs.

Table 1: Regular Fund—budgetary execution and variances (in thousands of USD)

\* Refers to approved budget. As per OAS General Standards, variances over and under 5% of the Regular Fund approved budget are explained.

Chapter 9 - Secretariat for External Relations—Personnel: A P05 in subprogram 93A will not be filled during 2015. A P03 in subprogram 93A was transferred from subprogram 83C. A P03 in subprogram 93E will be partially executed. Non-personnel: Additional funding of \$118.5K to cover CPR services in subprogram 93E.

Chapter 12 - Conferences and Meetings Management—Personnel: A new P05 is projected for 3 months. A P04 was transferred from subprogram 63F to subprogram 123A. A P03 in subprogram 123A will be partially executed. A G04 was transferred from subprogram 123A to subprogram 63F.

Chapter 14 - Compliance Oversight Management Bodies—Personnel: A D01 position is vacant. Actual costs are lower than budgeted average costs.

Fund for ICR—explanations for year-end projected variances (+ or -5%)

Chapter 1 - Office of the Secretary General—Non-personnel: Additional \$7.2K au-

thorized to subprogram 13C cover CPR services.

Chapter 3 - Principal and Specialized Organs—Personnel: Actual costs are lower than budgeted average costs. Non-Personnel: Transfer of \$17K from subprogram 113G to subprogram 33C to cover CPR services. Transfer of \$100K from personnel to non-personnel to cover CPR services in subprogram 33C.

Chapter 5 - Secretariat for Legal Affairs—Non-personnel: Additional \$6.2K authorized to subprogram 53C cover CPR services. Transfer of \$12.4K from personnel to non-personnel to cover CPR services in subprogram 53C.

Chapter 6 - Secretariat for Multidimensional Security—Personnel: 1 P02 transferred from subprogram 63B to subprogram 83B. 1 G05 in subprogram 63B will not be executed. Actual costs are lower than budgeted average costs. Non-personnel: Additional funding of \$20K to cover a CPR for subprogram 63E.

Chapter 7 - Secretariat for Political Affairs—Personnel: Actual costs are lower than

**Combining Statement of Changes in Fund Balances**

Table 3 summarizes all sources of income, execution and fund balances for funds that comprise the approved program-budget of the Organization (Regular Fund, Development Cooperation Fund, Specific Funds, and the Fund for Indirect Cost Recovery).

Other accounts under the grouping of Service and Revolving Funds are included in the table as they support the activities of the approved program-budget (e.g. rental income, tax reimbursement, parking fees, building maintenance, common costs). Trust Funds are not part of the approved program-budget and are therefore reported separately in Table 4.

Table 3: Combining Statement of Changes in Fund Balances, year-to-date (in thousands of USD)

(1) Does not include elimination of interfund transactions in both increases and decreases; however, this information is included in the general purpose financial reports that may be found at the end of this report.

(2) Accumulated interest income is recorded quarterly in the accounting periods of April, July, October and December only, and thus show in financial statements beginning in the 4th month of the year.

(3) For comparability purposes, when funds that have carryforward balances are presented with those that do not, prior year obligations are deducted to obtain the net execution for the period.

### Trust Funds

Trust funds are established by bequests or grants to finance purposes specified by the donor or legator, held in trust, and used in accordance with the pertinent provisions or instruments. The disposition of these funds are restricted by the instruments establishing them and the Board or Committee overseeing the resources. These funds are not part of the program-budget and address specific purposes such as:

- The Trust for the Americas is a not-for-profit organization that works to expand hemispheric cooperation and enhance economic development. Resources have been provided by contributions from corporate donors and U.S. federal grants.
- The Medical Benefits Trust Fund provides medical benefits to OAS staff members. Fund activity is limited to paying covered employees' health claims. Claim adjudication is handled by an insurance provider.
- The Rowe Pan American Fund is established to provide loans to students from Member States, other than residents and citizens of the United States, and to make loans to OAS employees for educational and emergency purposes.
- The assets of the Rowe Memorial Benefit Fund have been accumulated principally from contributions received from Dr. Leo S. Rowe, a former Director General of the Pan-American Union. These assets are held in trust to provide certain welfare benefits for OAS employees.

Table 4: Year-to-date inflows and outflows for the main Trust Funds (in thousands of USD)

	Trust for the Americas	Medical Benefits	Rowe Pan American
Beginning cash balance 01/01	1,125	43,212	17,014

Less outflows:			
Expenses	674	5,410	225
Other outflows	-	-	-
Ending cash balance 6/30	1,112	46,180	17,169

\* Includes net unrealized gains/loss.

### Cash and Equity in OAS Treasury Fund

All U.S. dollars available for use in carrying out the activities of the various funds of the OAS are consolidated in the OAS Treasury Fund. Each fund administered by the GS/OAS maintains equity to the extent of its cash balance retained therein (Figure 5). The GS/OAS administers the OAS Treasury Fund, and amounts not immediately required for operations are invested. Income earned by the OAS Treasury Fund through investments is added to the equity of each fund in proportion to its balance. GS/OAS applies a conservative risk profile in the management of assets in the OAS Treasury Fund, and its investment guidelines place emphasis on capital preservation over income generation.

Figure 5: Balance composition of the OAS Treasury Fund at the end of this period (in millions of USD and %)

At the end of this period, USD 86.9 million in cash were held in the OAS Treasury Fund shared by the various OAS funds (Figure 5). Resolutions CP/RES. 1034 (1984/14) and CP/RES. 1046 (2013/15), instructed the GS/OAS, as a highly exceptional circumstance, to utilize the resources in the OAS Treasury Fund as an interest-free internal loan for the Regular Fund, as a temporary solution to cover cash shortages. At the end of this period, the Regular Fund has a total outstanding loan balance against the OAS Treasury Fund of USD 8.04, of which USD 7.55 million is related to 2014 quotas in arrears and USD 0.49 million to 2015 quotas.

### Information on quotas

OAS General Standards require member states to pay their quota assessment in full on the first day of the corresponding fiscal year; otherwise, in order to be considered current they are required to negotiate a payment plan with the GS/OAS. Member states that pay their quota assessment by March of each year are entitled to the following discounts (applied to the following year's quota): 3% of the amount paid by January 31; 2% of the amount paid by the last day of February; and 1% of the amount paid by June 30. At the beginning of the year, USD 533.9 thousand was credited in prompt payment discounts as well as USD 1.3 thousand in payments in advance.

At the beginning of the year, the GS/OAS had USD 94.1 million in quota receivable (ie. balance due), USD 82.4 million from current quota assessment and USD 11.7 million for quotas in arrears—columns **a** and **e** in Table 5, respectively. By the end of this quarter, the GS/OAS had received USD 42.4 million towards the current quota assessment (column **b** in Table 5) leaving a current period balance of USD 40.0 million. The amount received includes the discounts credited for prompt payment.

At the same time, the GS/OAS had received USD 71 thousand towards the prior year quota balance (column **f** in Table 5), still leaving a prior year balance of USD 11.6 million. At the time of writing this report, the GS/OAS had not received indications from member states in arrears as to when the due amounts would be paid.

Given the significant impact of quotas on the Regular Fund cash flow, the GS/OAS continuously monitors quota information and regularly updates its assumptions on projected quota collections based on member states' payment plans and payment history.

Out of 34 member states, 23 member states are current and/or considered current with their quota assessment and 11 member states are not current. The latter have not paid their quota assessment for the current year nor have they agreed to a written payment plan with the General Secretariat. Four member states within these group have not paid their quota balance in arrears and the GS/OAS cannot anticipate when payments will be received in 2015 (Tables 6 and 7).

**Table 5:** Year-to-date progress on quota collection by year (in USD and %)

Year	(a) Assessed quotas	(b) Collection on assessed quotas	(c = a - b) Current Period collection balance	(d = b / a) Current year collection progress	(e) Prior year quotas balance	(f) Collection on prior year quotas	(g = e - f) Prior year collection balance	(h = f / e) Prior year collection progress	(i = [b + f]/[a + e]) Total collection progress

### Regular Fund liquidity risk assessment

The Regular Fund began the year with a cash balance of USD 0, fluctuating through the year and ending again in USD 0 million by the end of the quarter (Table 6). The GS/OAS projects a possible maximum cash deficit of USD 16.55 million in November of this year based on member states' payment plans and payment history (excludes member states with balances in arrears). Although the approval of the extension of the temporary loan from the Treasury Fund through CP/RES. 1046 (2013/15) has

already helped to mitigate cash shortages through this quarter, the delay in quota payments continues to be a long-term management concern as it significantly impacts liquidity in the Regular Fund and therefore GS/OAS operations. At this time, the General Secretariat cannot project the repayment of the temporary loan, since it has not received indications from the member states in arrears, as to when the due amounts will be paid. Table 8 shows member states' net monthly payments received and/or projected this year.

### Contributions from member states to OAS funds

Table 9 summarizes contributions from member states to OAS funds. In addition, the table shows the Specific Funds' fund balance of each member state at the end of this period. The column for current year collection under Regular Fund refers to total

quota payments for the current assessment made so far by each member state as of this period. Amounts in this column include discounts for prompt payment and payments in advance so they might differ slightly with the information presented in previous sections of this report (quotas and liquidity). A complete list of contributions from all donors is published in the [OAS website](#).

\* Include prompt payment credits and/or payments in advance.

### Disbursements by location

The OAS executes numerous activities throughout its member states, requiring payment for goods and services in their corresponding local currencies. The majority of disbursements occur in Headquarters, mostly due to payroll expenses and infrastruc-

ture costs. In Latin America, a large portion of disbursements are related to the Mission to Support the Peace Process in Colombia (MAPP), sustainable development activities in Argentina, judicial facilitators and demining activities in Nicaragua. Disbursements in a specific location do not necessarily reflect full project activity since a large portion of project activity is disbursed in Headquarters.

Figure 6: Disbursements by location (in millions of USD)

### Supplementary Appropriation CP/RES. 831

In 2002, the Permanent Council, through CP/RES831 (1342/02), approved the "Use of Excess Resources of the Reserve Sub-fund for Capital Investment and to Meet OAS Mandates." These resources are reported as part of the Specific Funds.

The appropriated excess resources of the Reserve Sub-fund amounted to USD 20,600,000. In addition, pursuant to AG/RES. 1 (XXV-E/98), USD 415,941 of unobligated Regular Fund appropriations were allocated to OAS Scholarships and Training Programs.

Further to the appropriations, there were net additions of USD 3,325,220 from transfers of several sources bringing the appropriation to a total of USD 24,341,161. In addition, the fund has earned interest of USD 2,859,110 through March 31, 2015, which has been distributed to each of its activities. Thus, the total funding to date provided to the fund is USD 27,200,271.

Table 10 summarizes the financial activity of this appropriation since its inception to date. A more detailed financial statement with notes on net additions (transfers) is published in the [OAS website](#).

# OAS Country Offices

- Expenditures by Country Office
- Statement of Funds Available for OAS Country Offices

## Expenditures by Country Office

The majority of expenditures incurred by OAS Country Offices are related to personnel costs to finance, in most cases, the office representative and the secretary of

each country office, and in a few instances, a driver/messenger. Non-personnel costs between offices may differ because of several factors including cost of living and office activity. Table 11 breaks down total expenditures financed with Regular, Specific and Fund for ICR by office and object of expenditure.

Table 11: Year-to-date expenditures by Country Office and object of expenditure (all sources of financing)

### Statement of Funds Available for OAS Country Offices

OAS Country Offices are financed by the Regular Fund, the Specific Fund for OAS Country Offices (Fund 118), the Fund for ICR and other relatively small service accounts. Table 12 summarizes funding and uses of funding (decreases) by source of

financing. The resulting funds available reported in this table is the balance at the end of this reporting period. This balance does not include year-end projections and therefore differs from the balance presented in Tables 1 and 2 for the Regular Fund and the Fund for ICR for Chapter 13. A detailed Statement of Changes in Fund Balance for the Specific Fund 118 by country is published in the [OAS website](#).

Table 12: Year-to-date Statement of Funds Available for OAS Country Offices

<b>c=a-b NET INCREASE (DECREASE) DURING PERIOD</b>	<b>520,633</b>	<b>(71,790)</b>	<b>2,099</b>	<b>2,780</b>	<b>453,723</b>
<b>d Funds available, beginning of period</b>	<b>-</b>	<b>366,878</b>	<b>-</b>	<b>14,846</b>	<b>381,724</b>
<b>e=c+d FUNDS AVAILABLE, END OF PERIOD (2)</b>	<b>520,633</b>	<b>295,089</b>	<b>2,099</b>	<b>17,626</b>	<b>835,448</b>

(1) Refers to modified budget, which is the original approved program-budget plus any transfers in and out between chapters.

(2) Funds available for the Regular Fund and Fund for ICR differ from Tables 1 and 2 presented in the section of budgetary execution and variances because this table is based on actual expenditures and obligations through the period, and does not include year-end projections as in Tables 1 and 2.

(3) Includes financial activity from cost-sharing agreements for office space.

# Specific Funds

- Key developments
- Signed donor agreements
- Expenditures by donor and pillar
- Statement of Changes in Fund Balance
- External financial audits requested by Specific Fund donors

## Key financial developments

Contributions to Specific Funds reached USD 17.3 million, approximately 27% and 44% lower than the same periods in 2014 (USD 23.6 million) and in 2013 (USD 31.0 million), respectively. Year-to-date contributions from member states and other institutions have decreased by approximately 51% and 16%, respectively, compared to the same period last year. At the same time, however, permanent observers increased their contributions significantly by 101%. The increase of contributions from permanent observers has not been enough to offset the overall decrease in contributions to Specific Funds and this decline is already impacting ICR collection, which is 18% lower when compared to the same period last year. Although it is still too early to tell at this point in time, the overall decrease in contributions may only reflect a timing issue in donor programming. That being said, the Department of Financial and Administrative Management Services (DFAMS) does not have information as to why the overall trend of contributions to Specific Funds is decreasing.

## Signed donor agreements

A donor agreement is any pact, memorandum of understanding, letter of understanding, exchange of letters, comprehensive cooperation agreement, etc., that the GS/OAS concludes with another party or parties to execute a specific activity or project. Donor agreements for Specific Funds often impose conditions on the use of funds, which may include one or more of the following administrative requirements: specific purpose, allowable timeframe, detailed budgets, eligibility of costs, financial and narrative reporting, interest accreditation, external audit, etc. Some donors impose more requirements than others and, overall, the more requirements the more administrative cost that the GS/OAS incurs in executing donor agreements. For example, to comply with some of the diverse financial reporting requirements such as

multi-currency reporting, the GS/OAS prepares spreadsheets manually because of the current limitations of its financial system.

The GS/OAS actively tracks and manages over 500 donor agreements every year in its financial system, each with its own set of administrative requirements. This volume is high considering that the average dollar amount expensed is only USD 107 thousand per signed donor agreement (based on 2014 data). Furthermore, over 80% of these agreements are below this average. Thus, management believes that an organizational wide effort is necessary to negotiate more framework agreements or “basket funds” with donors in order to reduce administrative costs, whereby one donor agreement finances several large projects or programs. The recommendations of the Management Modernization Plan also encourage this effort. The GS/OAS has made progress on this with a few donors such as Canada and Spain, and a few programs such as OAS/MAPP Peace Process in Colombia, but a more systematic effort is required.

So far this year, 69 new agreements will start execution this year for a total pledged amount of USD 13.4 million. Table 13 summarizes these agreements by type of donor. A detailed list of signed donor agreements is published in the [OAS website](#).

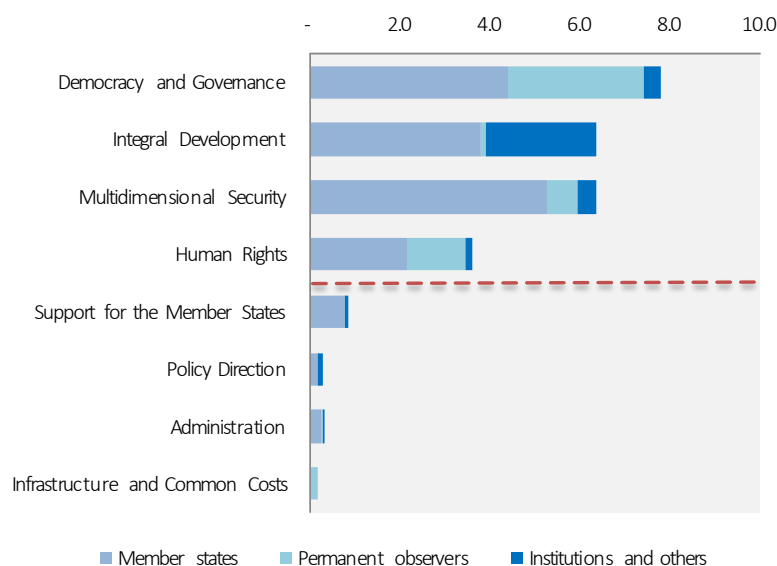

**Table 13:** New donor agreements starting execution this year

Donor	a Quantity	b Amount in thousands of USD	c=b/a Average amount in thousands of USD	d Range of execution periods
Member states	44	7,602.5	172.8	From 0 to 6 years
Permanent observers	15	4,784.8	319.0	From 1 to 3 years
Institutions and others	10	1,005.6	100.6	From 0 to 3 years
<b>Total</b>	<b>69</b>	<b>13,392.9</b>	<b>194.1</b>	

### Expenditures by donor and pillar

Several donors contribute to Specific Funds by way of unprogrammed funds, where contributions are received by the GS/OAS for no specific project activity at first, and are then programmed for use to a specific project often at a later time and sometimes crossing fiscal periods. When these contributions are programmed to specific project activities and these are expensed, any remaining funds at the finalization of those activities return to the original unprogrammed account. In these cases, the net programming (original contribution minus unexpended funds) would be considered as the “contribution” to those activities. For the reasons explained above, looking at contributions alone might not provide a complete picture of where funds are being directed by donors and how funds are being used. Expenditures are a good indicator that help understand how donors and GS/OAS areas are programming Specific Funds over time. Expenditures show how funds are actually being used by specific project activities in the current period, irrespective if the contribution came from unprogrammed funds or if remaining funds were returned to the donor.

Figure 7: Expenditures by donor and pillar (in millions of USD)

So far this year, the GS/OAS incurred a total of USD 25.7 million in Specific Fund expenditures. Almost 65% of that amount was financed with contributions from member states, 21% with contributions from permanent observers and 14% with contributions from institutions and other donors. Permanent observers tend to finance activities within the pillar of democracy and governance while institutions and other donors such as the United Nations tend to finance activities within integral development (Figure 7).

### Statement of Changes in Fund Balance

Specific Funds operate differently than the Regular Fund or the Fund for Indirect Cost Recovery (ICR) in terms of budgetary execution. Activities that fall under Specific Funds are executed by the GS/OAS in accordance to signed donor agreements, and therefore their budgetary execution is directly linked to donor-imposed restrictions. Several of these agreements are executed crossing fiscal periods so, in terms of presenting financial activity for the current period, a carryforward beginning balance from prior years is presented to show the complete picture (besides contributions) of how current expenditures are being financed. Table 14 summarizes this activity by Chapter. A much more detailed statement at the subprogram, donor and project level is published in the [OAS website](#).

### External financial audits requested by Specific Fund donors

As part of donor-imposed conditions, the GS/OAS coordinates external financial audits for some of its projects and activities. The coordination of these audits typically lasts four months from beginning to end, and include activities such as the preparation of audit terms of reference, the bidding of external auditing firms, comprehensive financial data collection and review, management and legal letters, and the final audit report. So far this year, two external financial audits were performed on OAS/MAPP “Basket Fund” and Judicial Facilitators Program in Central America resulting in clean opinions. One more specific project audit is already programmed to start in the third quarter of this year and, potentially, up to 29 additional audits may be requested by donors during 2015. A detailed list of the status of financial audits is published in the [OAS website](#).
