REEEP

Renewable Energy and Energy Efficiency Partnership

1. REEEP is a global private public partnership launched by the UK government at the WSSD.
2. REEEP currently comprises 130 partners representing governments, businesses and NGOs committed to accelerating the uptake of renewable energy and energy efficiency.
3. REEEP's budget is around 7 mio Euros per annum, the partnership is globally active supported by 7 regional offices

REEEP Objectives

“generate green kilowatts & save energy”

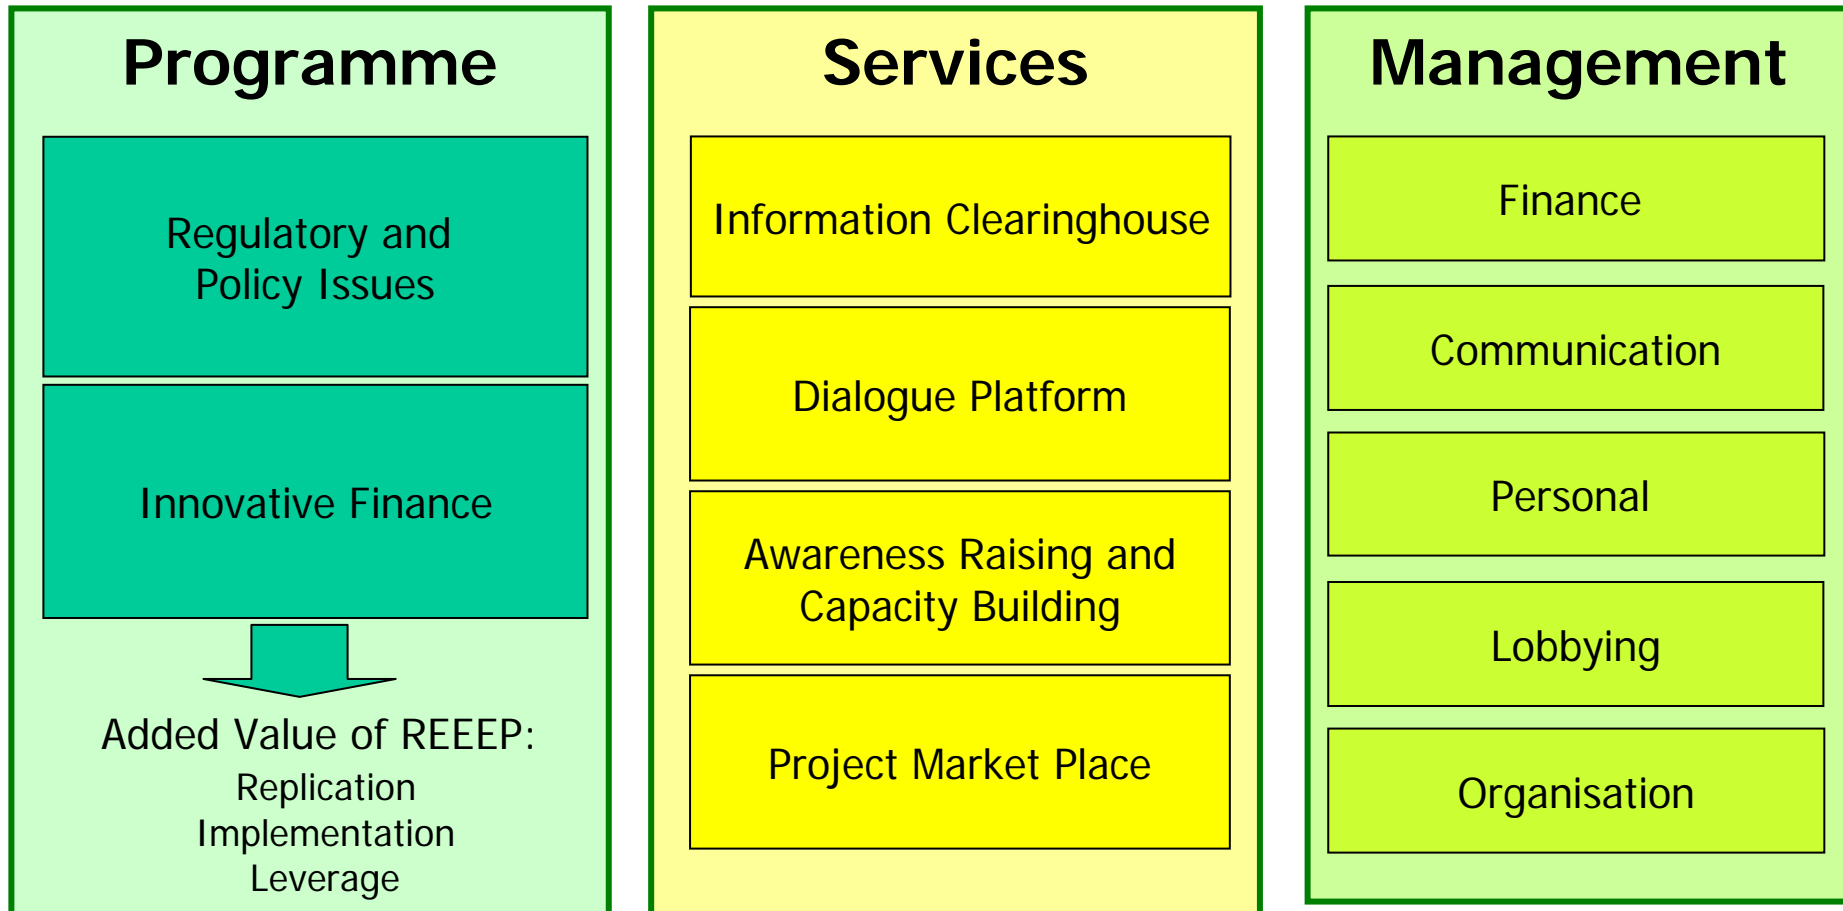

1. Stimulation of a significant global increase of investments in RES energy sources
2. Stimulation of significant increase in the global use of energy efficiency measures
3. Improvement of rural energy supply in developing and transition countries by utilisation of RES and increase of energy efficiency

Conclusion

- REEEP supporting a number of projects in Mexico, Central and South America
- Keen to gauge impact and adjust focus within bounds of two core themes
- Activities in Latin America are key given efforts already underway and scope for significant impact of RE and EE
