

COM/CITEL/RES. 70 (VII-98)¹

TELEMEDICINE PROJECT

The Seventh meeting of the Permanent Executive Committee of CITEL, COM/CITEL,

CONSIDERING:

- (a) That the Telemedicine Initiative for the Americas is important for the developing countries,
- (b) That the topic of Telemedicine, by means of Resolution PCC.I/RES.48 was assigned to the Working Group on Basic and Universal Telecommunication Services,

RESOLVES:

1. To submit to the Permanent Consultative Committee I (PCC.I) the document COM/CITEL/doc.385/98 “Consequences of ITU World Telecommunication Development Conference of 1998” submitted by the Delegation of Ecuador, so that it will be studied and analyzed in the Basic and Universal Telecommunication Service Working Group.
2. To instruct the PCC.I Chairperson that after finalizing the studies corresponding to the above mentioned document and taking into consideration the work being done by the ITU in the area of Telemedicine, the corresponding comments should be disseminated to all the Member States of CITEL.
