<sup>1</sup> CCP.I-TIC/doc. 5386/23

The 42 Meeting of the Permanent Consultative Committee I: Telecommunications/Information and Communication Technologies (PCC.I) received and considered the liaison from JCA-IoT and SC&C that was approved at the ITU-T Study Group 20 meeting held in February 2023. PCC.I appreciates notification that the new version 2.0 of the JCA IoT and SC&C standards roadmap is now live and the invitation to submit relevant standards for inclusion in the roadmap.

The topic of Internet of Things and Smart Cities and Communities is of high interest to the PCC.I membership. Although PCC.I does not develop standards and therefore does not have information to include in the new standards roadmap, we look forward to receiving future information on the progress of the JCA-IoT and SC&C work activities.
