PCC.I greatly appreciates the commendable work undertaken by ITU-T Study Group 20 and Question 7 in telecommunications/ICTs in connection with technological innovation and the digital ecosystem. PCC.I is following with enthusiasm the efforts being made by ITU-T Study Group 20-Regional Group for Latin America to conduct in-depth critical studies on emerging technologies and the digital economy.

PCC.I cordially requests the establishment of a solid and mutually beneficial liaison for the exchange of communications with ITU-T Study Group 20-Regional Group for Latin America and ITU-T Question 7. The objective of this cooperation is to improve know-how and skills to tackle matters relative to technological innovation and the digital ecosystem, for the purpose of effectively promoting the development of the digital economy, the Internet of Things, and smart communities and cities. On the basis of that exchange of know-how and best practices, we will enhance our understanding of those resources and effectively use them for the benefit of the development of the digital economy in the Americas.

PCC.I looks forward to your favorable response to our proposal for mutual communication. We also look forward to fruitful and harmonious cooperation in the future.
