This side event to MISPA VII aims at creating and initiating a dialogue between civil society organizations so that they may share their experience working on intentional homicide prevention and reduction in their own countries and the region, and suggest concrete ideas/initiatives on how they may contribute to the implementation of the Plan's recommendations.

A total of nine organizations from different countries of the region will be participating in this event, providing a diversity of perspectives, knowledge and backgrounds. After a brief introduction by the OAS Department of Public Security and Open Society Foundations, each organization will give a 10-minute intervention. The event will close with a session for comments, questions and answers.
