Name of Initiative: Building Capacity for Sustainable Development in Urban Communities: Towards a Regional Platform

Duration: 2022 to 2025

Current participating Countries: Central American Isthmus (Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama, and the Dominican Republic) and OAS/CARICOM Member States.

Objective: To build capacity in urban communities in the Central American Isthmus and the Caribbean for achieving their sustainability.

Activities: Seminars and workshops for the application of the GPSC-USF indicators; pilots in selected urban communities; establishment of multi-disciplinary expert support teams and a community of practice towards a Platform for Sustainable Cities of the Americas.

Cost and Funding: USD $10 million
